

## **Ann**

Annie trained at Glasgow Caledonian University and graduated in 1998. Over the course of her career she has worked in both the NHS and private sector. Her NHS work has included jobs in hospitals and GP practices across Cheshire and North Wales. This has provided a wealth of knowledge and experience in the assessment and management of common and complex musculoskeletal conditions and post-surgical orthopaedic care. Through her work as private practitioner she has developed a strong skill set in the management of sporting injuries.

In more recent years she has developed a special interest and expertise in the management the disorders of the upper limb such as rotator cuff pathology, shoulder instability and tennis elbow. She has a diploma in Orthopaedic Medicine and has completed post-graduate training in the Advanced Practice of the Upper Limb at Liverpool University.
